Students that remained active or on leave of absence due to covid will be eligible.

Instructions and guidance can be found in the student application for the Emergency Financial Aid Grants.

****** In preparing the 30-day Fund Report, institutions should use data suppression and other methodologies to comply with, and protect the personally identifiable information from student education records, under the Family Educational Rights and Privacy Act (20 U.S.C. § 1232g; 34 CFR Part 99). For example, the Department does not expect institutions to report information about a group of 10 or fewer students. For example, if the total number of eligible students, the total of number of students who received Emergency Financial Aid Grants, or the difference between the two numbers is less than 10, then the institution should not display the number of students or the amount of Emergency Financial Aid Grants to students on publicly available website(s) controlled by the institution.

Institutions that accurately report the information listed above will meet the initial reporting requirements. For subsequent reports and reporting for other related HEERF programs, the Department will notify participating institutions of the Department's preferred reporting method. The Department may choose to collect additional information from institutions in accordance with the reporting requirement stated at Section 18(e) of the CARES Act and the Certification and Agreement.
