Placement Rate Methodology Formula

The placement rate provided was calculated using the formula required by our accrediting agency, the Accrediting Bureau of Health Education Schools (ABHES).

The following is taken directly from the ABHES Accreditation Manual 18th Edition/Updated 1/1/2020, page 68. Available here:

<https://abhes.org/wp-content/uploads/2020/07/18th-Edition-Accreditation-Manual-Effective-7312020.pdf>

Placement Rate Formula = $(F + R)/(G - U)$

F = Graduates placed in their field of training

R* = Graduates placed in a related field of training

G = Total graduates

U** = Graduates unavailable for placement

*Related field refers to a position wherein the graduate's job functions are related to the skills and knowledge acquired through successful completion of the training program.

**Unavailable is defined only as documented: health-related issues, military obligations, incarceration, continuing education status, or death.

LIST OF EXCLUSIONS

Graduates who may be excluded from the placement rate must be documented as one of the following:

- health-related issues
- military obligations
- incarceration
- continuing education status
- death
